TIAN(Phillip) WU

OBJECTIVE

Driven by passions for creating a better digital world, I am seeking to embark on a new journey after graduating from university as a CS major student. I am always keen to experiment with new tech stacks in the industry to design and code products that bring joy to others.

SKILLS

Prototyping and wireframing

- Skills in designing wireframes and high fidelity prototypes using Figma

Python development

- Experience in developing simple python games
- Experience in developing interfaces to communicate with hardware

Web development

- Familiar with React development and integration of front-end design and back-end implementation using Typescript
- Familiar with developing responsive website using React frameworks such as Gatsby and Next.js

Linux

- Experience in bash scripting and Linux server administration

CS foundations

- Average GPA 6.375/7 with HD in both Algorithm(COMP3600/6466) and Computer Organization and Program Execution(COMP2300/6300)

EXPERIENCE

CGA@ANU, Canberra – Summer Project Scholarship

November 2021 – Now

- [Python interface](#) with EPICS in TorPeD0 system using Modbus protocol

ANFF@ANU, Canberra – TechLauncher participant and team spokesman

February 2021 – October 2021

- Website prototyping and layout design
- React development and website deployment

CherryHill Orchards, Melbourne – Orchard Guide

October 2018 – January 2019

- Orchard customer service and hospitality service for the cherry orchard.

EDUCATION

Australian National University, Canberra – Master of Computing

February 2020 – December 2021

Focused my specialization on software engineering and just graduated in December, 2021 from CECS at ANU.

Southeast University, Nanjing – Bachelor of Science

August 2009 – July 2013

Majored in Condensed Matter Physics and engaged in the nano-fabrication of Titanium-based catalysts.

VOLUNTEER

Orange Sky, Canberra

October 2021 – Present

Helped homeless friends with free laundry in a laundry van.

Vinnies Belconnen, Canberra

August 2020 – November 2020

As a general hand, I helped assist with the smooth running of the back of the house area of the retail center.

REFEREES

Dr Bram Slagmole – Research Fellow

Center for Gravitational Astrophysics

Gravity Wave Building 1 80

(02) 612 59094

bram.slagmolen@anu.edu.au

Dr Sheon Chua – Research Fellow

Center for Gravitational Astrophysics

Gravity Wave Building 1 79
